

# Graduate Certificate in Cybersecurity Management

Securing an organization's data requires a combination of technical skills, innovative concepts and managerial acumen. The Graduate Certificate in Cybersecurity Management at Washington University is a 15-unit part-time program designed for working professionals. This program was developed with one critical goal: to educate professionals about how to manage the people and resources required to perform these tasks and to lead the cybersecurity functions of various organizations.

The curriculum provides students with the knowledge needed to protect from, defend against, respond to and recover after cyber threats. Graduates of this certificate program will be equipped to design, engineer and assess global cybersecurity problems while maintaining the vision and strategy of the enterprise.

Graduate Certificate: 15 units, 10-15 months to complete
