

Graduate Certificate in Engineering Management

The competitive Engineering Management program bridges the gap between technology and business by providing students with the technical expertise and leadership skills needed to advance their careers. The 15-unit Graduate Certificate in Engineering Management is available for part-time, working professional students.

This program brings together Washington University faculty and industry-leading experts to help students learn to strategize, lead, make informed decisions, manage financials, and leverage both existing and emerging technology. The courses prepare individuals to utilize common management tactics across all of the engineering disciplines.

Graduate Certificate: 15 units, 10-15 months to complete
