Psychological & Brain Sciences

The Department of Psychological & Brain Sciences teaches graduate students who are interested in becoming the next generation of academic researchers and educators in psychological and brain sciences. Graduate study may be undertaken in the following general areas: Behavior, Brain & Cognition; Clinical Psychology; Aging & Development; and Social & Personality Psychology. The traditions of Washington University and the department encourage interdisciplinary graduate study, both between the subfields of psychological and brain sciences and across other disciplines. Therefore, whereas students must affiliate with at least one of the areas within psychological and brain sciences, they are frequently affiliated with multiple areas within psychological and brain sciences. Further, many graduate students in Psychological & Brain Sciences also engage in interdisciplinary learning, scholarship and research. For example, cross-disciplinary opportunities and research are available in the Division of Biology and Biomedical Sciences (e.g., neuroscience and genetics); in the programs of Linguistics and of Cognitive, Computational, and Systems Neuroscience; in African-American Studies; and in Philosophy-Neuroscience-Psychology, as well as in several departments in the schools of Medicine and Engineering.

The Department of Psychological & Brain Sciences admits students for full-time study toward the PhD and does not offer a terminal master's degree. However, students are required to complete a master's degree with a thesis as part of the requirements for a PhD. In addition, the PhD includes required courses (including statistics, methods, ethics, and several core content areas), a subject matter exam, at least two semesters of a teaching experience that fulfills the doctoral teaching requirement, and consistently high-quality research productivity that results in publishable findings.

The Department of Psychological & Brain Sciences also offers the Graduate Certificate in Quantitative Data Analysis, open to graduate students of various disciplines. Advanced skills and knowledge in quantitative analysis, methods and interpretation are critical assets for scholars in a wide range of disciplines within the social sciences. Further, many of the important practical, analytical and conceptual skills are shared across disciplines. Many of the graduate programs in the social sciences include basic quantitative analysis skills within the core required curriculum of their department, but many students would benefit from advanced preparation in this domain. The certificate program will provide an organized means for students to achieve an advanced level of knowledge and skill in quantitative social science data analysis, interpretation and visualization that can be applied and shared in a variety of occupational domains.

The Graduate Certificate in Quantitative Data Analysis will require students to master both an introductory level and a more advanced level of quantitative skills and knowledge. Some of the introductory-level courses might overlap with courses that are already required within a student's individual PhD program curriculum, but the advanced level will require students to go beyond the basic expectations of their graduate program in order to achieve greater depth and breadth of knowledge and abilities.

Students interested in the Graduate Certificate in Quantitative Data Analysis should first apply for admission to the Washington University department in which they wish to obtain a graduate degree. After being admitted, students should notify their department adviser and the Graduate Certificate in Quantitative Data Analysis program director (dbarch@wustl.edu) of their plans to obtain the certificate. In addition, students should submit an “Application for Admission to Certificate Program” form to the Graduate School office, and send a copy to the Graduate Certificate in Quantitative Data Analysis office.

Faculty

Chair
Deanna M. Barch (http://psychweb.wustl.edu/people/deanna-barch)
Gregory B. Couch Professor of Psychiatry
PhD, University of Illinois at Urbana-Champaign

Associate Chair
Jeffrey M. Zacks (https://dcl.wustl.edu/people/jeff-zacks)
Professor
PhD, Stanford University

Endowed Professors
John Baugh (http://psychweb.wustl.edu/people/john-baugh)
Margaret Bush Wilson Professor in Arts & Sciences
PhD, University of Pennsylvania
(African and African-American Studies; Anthropology; Education; English)

Pascal R. Boyer (https://psychweb.wustl.edu/people/pascal-boyer)
Luce Professor of Collective and Individual Memory
PhD, University of Paris
(Anthropology)

Randy J. Larsen (http://psychweb.wustl.edu/larsen)
William R. Stuckenberg Professor of Human Values and Moral Development
PhD, University of Illinois at Urbana-Champaign
Thomas F. Oltmanns
Edgar James Swift Professor of Arts & Sciences
PhD, State University of New York–Stony Brook

Steven E. Petersen
James S. McDonnell Professor of Cognitive Neuroscience
PhD, California Institute of Technology

Henry L. Roediger III
James S. McDonnell Distinguished University Professor
PhD, Yale University

Rebecca A. Treiman
Burke and Elizabeth High Baker Professor of Child Developmental Psychology
PhD, University of Pennsylvania

Denise E. Wilfley
Scott Rudolph University Professor of Psychiatry
PhD, University of Missouri

Professors

Richard A. Abrams
PhD, University of Michigan
David A. Balota
PhD, University of South Carolina
Todd Braver
PhD, Carnegie Mellon University
Brian D. Carpenter
PhD, Case Western Reserve University
Ian G. Dobbins
PhD, University of California, Davis
Leonard Green
PhD, State University of New York–Stony Brook
Sandra S. Hale
PhD, University of Wisconsin–Milwaukee
Mark A. McDaniel
PhD, University of Colorado
Kathleen B. McDermott
PhD, Rice University
Mitchell Sommers
PhD, University of Michigan
Michael J. Strube
PhD, University of Utah

Desirée A. White
Endowed Associate Professor
PhD, Washington University

Joshua Jackson
Saul and Louise Rosenzweig Associate Professor of Personality Science
PhD, University of Illinois at Urbana-Champaign

Ryan Bogdan
PhD, Harvard University
Julie M. Bugg
PhD, Colorado State University
Janet M. Duchek
PhD, University of South Carolina
Denise P. Head
PhD, University of Memphis
Patrick Hill
PhD, University of Notre Dame
Alan J. Lambert
PhD, University of Illinois at Urbana-Champaign
Lori Markson
PhD, University of Arizona
Thomas L. Rodebaugh
PhD, University of North Carolina at Chapel Hill

Assistant Professors

Tammy English
PhD, University of California, Berkeley
Calvin Lai
PhD, University of Virginia
Renee J. Thompson
PhD, University of Illinois at Urbana-Champaign
Kristin Van Engen
PhD, Northwestern University
Claire L. Wilkins
PhD, University of Washington

Affiliated Faculty

Arpana Agrawal
PhD, Virginia Commonwealth University
(Psychiatry)

Joe Barcroft
PhD, University of Illinois at Urbana-Champaign
(Romance Languages and Literatures)
Cindy Brantmeier (http://education.wustl.edu/people/cindy-brantmeier)
PhD, Indiana University
(Education & Applied Linguistics)

Robert Carney (http://www.psychiatry.wustl.edu/c/Faculty/

PhD, Harvard University
(Anatomy and Neurobiology)

James V. Wertsch (http://anthropology.artsci.wustl.edu/
wertsch_james)
Marshall S. Snow Professor in Arts & Sciences
PhD, University of Chicago
(Anthropology; International and Area Studies; Education)
Research Professor

Joel Myerson (http://psychweb.wustl.edu/myerson)
PhD, Arizona State University

Lecturers

Tim Bono (http://psychweb.wustl.edu/bono)
PhD, Washington University

Emily Cohen-Shikora (https://psychweb.wustl.edu/cohen-shikora)
PhD, Washington University

Erin Lawton (https://psychweb.wustl.edu/lawton-0)
PhD, Washington University

John Nestojko (https://psychweb.wustl.edu/nestojko)
PhD, University of California, Los Angeles

Heather Rice (http://psychweb.wustl.edu/rice)
PhD, Duke University

Robinson Welch (http://www.psychiatry.wustl.edu/wilfeylab/home/welch)
PhD, University of Missouri-Columbia

Professors Emeriti

Stanley Finger (http://psychweb.wustl.edu/finger)
PhD, Indiana University Bloomington

Larry Jacoby (http://psychweb.wustl.edu/jacoby)
PhD, Southern Illinois University Carbondale

Brett Kessler (http://psychweb.wustl.edu/kessler)
PhD, Stanford University

Michael Merbaum (http://psychweb.wustl.edu/merbaum)
PhD, University of North Carolina at Chapel Hill

Anthony Schuham (http://psychweb.wustl.edu/schuham)
PhD, Washington University

Martha Storandt (http://psychweb.wustl.edu/storandt)
PhD, Washington University

Robert L. Williams (http://psychweb.wustl.edu/williams)
PhD, Washington University

Degree Requirements

PhD in Psychological & Brain Sciences

The following is a brief listing of the requirements for the PhD in Psychological & Brain Sciences. A more detailed description of these requirements may be found in our Graduate Student Handbook (http://psychweb.wustl.edu/graduate). Of note, students in the clinical science training program have somewhat different requirements; please refer to the Clinical Program Handbook (http://psychweb.wustl.edu/graduate/clinical-psychology) as well (available on the clinical program website).

All students must:

- Complete required graduate-level courses (courses must be completed for a student to be considered ABD). A typical semester course load for the first two years is 12-13 credit hours, unless teaching or research responsibilities suggest a 9-10 credit hour load.
- Obtain teaching experience commensurate with preparation for an academic career. There is a teaching requirement that all students must meet, the details of which are outlined in our Graduate Student Handbook.
- Attend a 1-credit (one hour per week) seminar on research ethics. This typically happens during the fall semester of a student’s first or second year in the program.
- Attend at least five (5) professional development workshops over the entire course of the program.
- Complete a qualifying research project during the first two years of graduate study. This is often referred to as the master’s thesis.
- Pass a subject matter examination. This examination must be passed before work on the dissertation can begin.
- Complete a dissertation project and defend it in an oral examination. The research requirements for the PhD are described in more detail in our Graduate Student Handbook.

Graduate Certificate in Quantitative Data Analysis

The goal of the certificate is to ensure that students have both a solid basis in probability and statistics as well as inference and quantitative research design, and some depth of experience in a more advanced topic area. As such, students completing the certificate are required to take at least five courses. Consult the required course listings below. Of note, some courses appear in more than one area, but a course can only be used to fill one of the requirements. In consultation with the certificate adviser, students may substitute equivalent courses or more demanding mathematical treatments of the same course material. For programming prerequisites, visit our Quantitative Data Analysis website (http://psychweb.wustl.edu/Graduate_Certificate_in_Quantitative_Data_Analysis).

Core Area Courses (at least one from each area)

Probability and Statistics

<table>
<thead>
<tr>
<th>Code</th>
