International Affairs

The **Advanced Certificate in International Affairs** provides a foundation of courses for students who want to understand and analyze the complex questions, risks and opportunities associated with living and working in a rapidly changing global environment. Our heightened economic and political interdependence generates challenges in areas such as social justice, diversity, international security, sustainable development, resource distribution, technology and human rights. Moreover, rising nationalism and complex ethnic and religious tensions pose ongoing challenges while at the same time inviting strategies for compromise and cooperation.
