Washington University Institute for School Partnership, in coordination with the Department of Mathematics and Statistics and the Department of Education, has established a 15-hour Graduate Certificate program in Math Education through University College. The certificate program is directed at in-service teachers of grades K-8. Candidates for this program generally teach K-8 math but do not have a college degree in math. Admission to the program is competitive and by application only.

Washington University Institute for School Partnership, in coordination with the departments of Biology and Education, has established a 15-hour Graduate Certificate program in Science Education through University College, the evening division of Arts & Sciences. The certificate program is directed at in-service teachers of grades K-8. Candidates for this program generally teach K-8 science but do not have a college degree in science. Admission to the program is competitive and by application only.

Requirements

Graduate Certificate in Math Education

Required: 15 units

Teachers receive 3 graduate credits in education for each relevant course completed. The credits may include undergraduate math courses offered through University College, as well as selected math education courses. The program is designed so teachers will receive graduate credit for the additional undergraduate courses.

Graduate Certificate in Science Education

Required: 15 units

Teachers receive 3 graduate credits in education for each relevant course completed. The credits may include undergraduate natural science and math courses offered through University College, as well as selected science education courses. The program is designed so teachers receive graduate credit for the additional undergraduate courses.
