Departments & Programs of the School of Medicine

This section presents information about the departments and programs of the School of Medicine. Refer to the Academic Departments (p. 1) or Educational Programs (p. 1) sections of this page for more information, including information about the following programs:

- Applied Health Behavior Research
- Audiology and Communication Sciences
- Biology and Biomedical Sciences
- Biomedical Engineering
- Biomedical Informatics
- Clinical Investigation
- Genetic Epidemiology
- Medical Physics
- Medicine
- Occupational Therapy
- Physical Therapy
- Population Health Sciences
- Public Health

Academic Departments

Washington University School of Medicine has 20 academic departments, all of which support the school's tripartite mission of conducting outstanding patient care, education and research. The school excels by applying a multidisciplinary approach to all of its endeavors, allowing faculty to easily cross administrative boundaries to address the health industry's biggest challenges.

- Anesthesiology (http://bulletin.wustl.edu/medicine/departments/anesthesiology)
- Biochemistry and Molecular Biophysics (http://bulletin.wustl.edu/medicine/departments/biochemistry-molecular-biophysics)
- Cell Biology and Physiology (http://bulletin.wustl.edu/medicine/departments/cell-biology-physiology)
- Developmental Biology (http://bulletin.wustl.edu/medicine/departments/developmental-biology)
- Genetics (http://bulletin.wustl.edu/medicine/departments/genetics)
- Medicine (http://bulletin.wustl.edu/medicine/departments/medicine) (Internal Medicine)
- Molecular Microbiology (http://bulletin.wustl.edu/medicine/departments/molecular-biology)

Educational Programs

- Applied Health Behavior Research (http://bulletin.wustl.edu/medicine/departments/applied-health-behavior-research)
- Audiology and Communication Sciences (http://bulletin.wustl.edu/medicine/departments/audiology-communication-sciences)
- Biology and Biomedical Sciences (http://bulletin.wustl.edu/medicine/departments/biology-biomedical-sciences)
- Biomedical Engineering (http://bulletin.wustl.edu/medicine/departments/biomedical-engineering)
- Biomedical Informatics (http://bulletin.wustl.edu/medicine/departments/biomedical-informatics)
- Biostatistics (http://bulletin.wustl.edu/medicine/departments/biostatistics)
- Clinical Investigation (http://bulletin.wustl.edu/medicine/departments/clinical-investigation)
- Genetic Epidemiology (http://bulletin.wustl.edu/medicine/departments/genetic-epidemiology)
- Interdisciplinary Opportunities (http://bulletin.wustl.edu/medicine/departments/interdisciplinary)
- Medical Physics (http://bulletin.wustl.edu/medicine/departments/medical-physics)
• Medicine (MD) (http://bulletin.wustl.edu/medicine/degrees/md)
• Medicine Postgraduate (http://bulletin.wustl.edu/medicine/departments/postgraduate)
• Occupational Therapy (http://bulletin.wustl.edu/medicine/departments/occupational-therapy)
• Physical Therapy (http://bulletin.wustl.edu/medicine/departments/physical-therapy)
• Population Health Sciences (http://bulletin.wustl.edu/medicine/departments/population-health-sciences)
• Public Health (http://bulletin.wustl.edu/medicine/departments/public-health)
