Academic Regulations

Attendance
Successful education at the college level depends to a large extent on regular attendance at classes and laboratories. The College of Arts & Sciences has no fixed rules for "cuts" or "excused absences" but leaves to the judgment of each department or instructor the number of absences of any kind a student may have and still expect to pass a course. The faculty expects each instructor to give reasonable consideration to unavoidable absences and to the feasibility of making up missed work. The student is expected to explain to instructors the reasons for such absences and to discuss the possibility of completing missed assignments.

Units and Grades
The grading system used by the College of Arts & Sciences assumes that evaluation is useful to effective learning and that grades provide an indicator of accomplishment to the student, to advisers and the College Office, to graduate and professional schools, and to employers to whom the student chooses to submit them. Grades are symbols of achievement in a particular endeavor and should not be confused either with achievement itself or with personal worth.

Grades earned in physical education courses are not included in calculating the student's GPA.

Auditing a Course
Students may register for a specific course as an auditor, which entitles them to all the privileges of a regularly enrolled member of the class. Audit courses do not count toward the degree. Consult the instructor on the requirements of a successful audit, as unsatisfactory performance results in a grade of Z. A successful audit results in a grade of L.

Incomplete Grades
If a student experiences medical or personal problems that make satisfactory completion of course work difficult or unlikely, they may request a grade of Incomplete (I) from one or more instructors. In such a situation, the student should take the following steps:

1. Meet with the instructor before the final examination or due date for the final paper to discuss the request.
2. If the instructor consents, agree on the work remaining to complete the course and on a date when it will be submitted.

If these steps are not followed, the instructor is under no obligation to award a grade of I. Failure to submit completed work by the last day of classes of the next full semester will result in the I grade being changed automatically to a grade of F. For spring semester courses, this will be the last day of summer classes, typically mid-August.

By action of the faculty of the College of Arts & Sciences and the ArtSci Council, the college limits the number of accrued grades of Incomplete (I). The policy is intended to protect the student from building an overwhelming burden of unfulfilled course work. The regulation reads as follows: “Students who accrue three or more Incompletes will not be permitted to enroll for any subsequent semester until the number is reduced to two or fewer.” Should students have too many Incompletes, they will be declared ineligible for subsequent semesters until they have complied with the regulation. Compliance is normally achieved by the posting of grades online, but it also may be achieved by a note from the professor(s) to the College Office confirming that the student has turned in all requisite assignments for the relevant class(es).

Pass/Fail Option
To encourage students to enroll in courses they might not otherwise take, the faculty has established the credit/no credit option under which a student may register in courses and

</table>
receive a grade of credit (CR) or no credit (NCR). In any semester, a full-time student may enroll in one course under the credit/no credit option. A maximum of 24 units earned under this option may be applied toward the AB degree. Students must designate which course is to be taken under the credit/no credit option each semester at the time of registration. No change into or out of the option may be made after the dates designated in the dates and deadlines calendar, published online in Course Listings (https://courses.wustl.edu) each semester.

No more than 12 of the 24 units allowed for the credit/no credit option may be applied to area distribution requirements.

It is the student’s responsibility to discuss with the faculty member what constitutes a successful pass/credit in a particular course. Although the general pass mark is a C-, instructors have the discretion to set the pass mark higher in their individual courses.

The first-year writing course, the writing-intensive course, the applied numeracy course, and courses in the major and minor are excluded from the credit/no credit option. Pre-professional and prospective graduate students should also consider seriously the strong probability that professional schools may seek more definite grades than CR in courses that are required or strongly recommended for admission to professional or graduate study.

A few courses particularly designated by departments may require enrollment on a credit/no credit basis. When so required, students are permitted to elect an additional course to be taken credit/no credit but should consider carefully the consequences of that choice.

### Reading Days and Final Examination Period

When registering for classes at Washington University, students commit to all course requirements including the examination procedures chosen and announced by the course instructor. In selecting courses, students are advised to take note of all final exam information. Students anticipating conflicts in their final examination schedule should seek to resolve them with the relevant instructors before enrolling. Students should not register for courses that result in three or more final examinations on one day. If a student does so, the instructors are not obligated to offer an alternative exam.

Final exam days and times are subject to change. The most current final exam schedule information can be found on the Course Listings (https://courses.wustl.edu) website.

### Minimum and Maximum Course Loads

The average course load necessary to fulfill the required 120 units for the bachelor's degree in a timely fashion is 15 units — typically five courses — in each semester. Except for students approved for a reduced course load through Disability Resources, students must attempt a minimum of 12 units to be considered full-time. Students may not enroll for more than 21 units without permission and an additional per-unit tuition charge. Any enrollment between 12 and 18 units is considered typical.

Courses in the college that require more preparation and class time than average — foreign languages, mathematics and science — may carry 4 or 5 units of credit. When enrolled in these and other demanding courses, students should consider taking fewer than 15 units of academic work in a particular semester, then balancing such intensive semesters with modest increased units in subsequent semesters.

### Repeating a Course

Students whose performance in a course has not met their expectations are permitted to retake the course, receive a second grade, and have the letter R, denoting the retake, placed next to the grade for the first enrollment. All registrations will show on the transcript; however, only the grade and units of the final enrollment will be used to calculate the GPA.

Please note: This procedure is not pedagogically sound and should be avoided in all but serious cases, such as a grade of D in a course required for the major.

### Regulations:

While courses initially taken credit/no credit (pass/fail) may be retaken for a letter grade, courses initially taken for a letter grade must be retaken for a letter grade. Credit earned in the original enrollment will not be revoked should a failing grade be earned in the second or subsequent enrollments. Except in the case of a retake of an unsuccessful audit, the retake policy will not be invoked if the grade option for any of the enrollments is audit.

No student may use the retake option to replace a failing course grade received as a sanction for violation of the Academic Integrity Policy.

### Academic Probation and Suspension

Students are expected to maintain the highest level of scholarship during their time at Washington University. At a minimum, students must meet the standards set by the faculty as well as those mandated by the U.S. Department of Education. Those who do not complete at least 12 units or achieve a semester grade point average of 2.0 or better for each semester may be placed on probation or, in extreme cases of poor academic performance, may be required to take a break in enrollment. In certain cases, students who have completed at least 12 units and have a semester grade point average of at least 2.0 for each semester may still receive an academic warning or be placed on probation if the Committee on Academic Progress identifies areas of significant concern about a student’s progress (e.g., failure to complete College Writing

Undergraduates in good standing at the completion of a term
curriculum.
Students must be on pace to complete their program by
attempting no more than 150 percent of the credits required.
Anytime students fall below completing 2/3 or fewer of the credits
they have attempted overall, they are considered to not be
achieving satisfactory academic progress (SAP). The college will
work with those students to develop a plan to help them achieve
acceptable pace within a set period of semesters. Additionally,
if it is determined that a student cannot complete their program
within the 150 percent maximum credits, the student may not
continue their program of study at Washington University.
In the event of academic probation, the student will be matched
with a progress counselor for the following semester. The
student must complete an academic agreement with the
progress counselor to map out how improvement will be
achieved. Failure to attend class or complete work in a timely
manner may result in termination of enrollment for that semester.
In order to be eligible for a return to good academic standing,
a student on academic action must address the academic
considerations identified by the Committee on Academic Progress.
Students who fail to adequately address those concerns may
be required to take a break in their enrollment. Such students
may return to the College of Arts & Sciences only when they
demonstrate, under the conditions set for each individual case, a
capacity to work productively at the level required by the college
curriculum.

Leaves of Absence
Undergraduates in good standing at the completion of a term
are eligible to take a leave of absence (LOA) by completing an
LOA request. Students on LOA are assured reinstatement for
the next two years. Before returning, students are asked to notify
the College Office and submit a Reinstatement Form at least
six weeks prior to the beginning of the appropriate term. The
forms for requesting an LOA and reinstatement are available
on the College’s policies and procedures webpage (http://
artsci.wustl.edu/resources/policies-procedures).

A student wishing to take a medical leave of absence (MLOA)
must have a recommendation from Habif Health and Wellness
Center and a completed MLOA request submitted to the
appropriate dean in the College Office. A student wishing
to return from an MLOA must have a recommendation from
Habif Health and Wellness Center and a completed MLOA
reinstatement request submitted to the appropriate dean in
the College Office. Upon reviewing the recommendations from
Habif Health and Wellness Center and the student’s file, the
dean in the College Office will decide whether or not to grant
the request for the MLOA and/or for re-enrollment. The required
forms for an MLOA and reinstatement from MLOA are available
through Habif Health and Wellness Center (https://shs.wustl.edu/
FormsAndResources/Pages/Medical-Leave-of-Absence.aspx).

Transfer Credit
With preapproval, courses from accredited colleges and
universities can be transferred to Washington University and
will count toward a student’s 120 units required for the Bachelor
of Arts degree; such courses may also serve as prerequisites
to advanced courses and may count, with prior departmental
approval, toward a student’s major or minor. They do not,
however, substitute in Integrations or count toward other Arts
& Sciences distribution requirements. No transfer credit will be
accepted for courses taken while a student is suspended from
Washington University for violations of the University Student
Judicial Code or Academic Integrity Policy.

For further information pertaining to transfer credit, matriculating
first-year students should visit the Pre-Matriculation Credit
(http://bulletin.wustl.edu/undergrad/artscl) section in this
Bulletin; transfer students, visit the Transfer Students (http://
bulletin.wustl.edu/undergrad/artscl/requirements) section in this
Bulletin.

Military Training
Army and Air Force ROTC programs are available at
Washington University.

ROTC courses numbered I25 MILS 301C, MILS 302C,
MILS 401C, MILS 402C and AFROTC courses numbered I02
MAIR 301, MAIR 302, MAIR 401, MAIR 402 will be granted
full credit toward the AB degree, for a total of 12 units. The
courses do not count toward the 90 minimum Arts & Sciences
units required for the Bachelor of Arts degree but will instead
be categorized in the 30 maximum units that students may
earn in courses taken from Olin Business School, the School
of Engineering & Applied Science, University College, or the
Sam Fox School. These courses are letter graded and will count
toward the GPA, as do courses from University College and the
professional schools listed above.

ROTC courses numbered I25 MILS 101C, MILS 102C,
MILS 201C, MILS 202C and AFROTC courses numbered
I02 MAIR 101, MAIR 102, MAIR 201, MAIR 202 will be
granted 1 credit each for the Physical Training component, as
commensurate with performance courses currently receiving
credit toward the Bachelor of Arts degree, including courses
listed under L28 Physical Education. Such courses will not count
toward the GPA.

University College Courses
Students in the College of Arts & Sciences may enroll in course
work offered by University College (http://ucollege.wustl.edu)
as long as they do not exceed one course a semester and
a maximum total of 24 units. University College courses are
subject to the degree requirement that stipulates only 30 units
from any of the other schools of the university may be applied to
the Bachelor of Arts degree. University College courses do not
fulfill distribution requirements and can only count for a major or
minor with approval from the relevant department. Students in the College of Arts & Sciences do not receive credit for online courses offered by University College.
