

Special Audit Program

Students may audit a wide selection of undergraduate courses in the School of Continuing & Professional Studies for \$400 per course. The Special Audit option in the School of Continuing & Professional Studies makes it easier than ever for students to challenge themselves with high-quality continuing education at Washington University in St. Louis.

All School of Continuing & Professional Studies courses available on the Special Audit basis are noted with an "SA" icon in the course listings (<https://acadinfo.wustl.edu/ucollege/>). Courses taken as Special Audit do not appear on a Washington University transcript, do not carry academic credit, and do not apply to degree requirements in a School of Continuing & Professional Studies program of study.
