

BSIS: Health Care Management

The Bachelor of Science in Integrated Studies: **Health Care Management** provides an academic foundation for students pursuing managerial careers in health care. The program includes courses that examine scientific, social, political, economic, ethical and organizational issues in health care and that also address implications for public policy. These courses underscore the complex, interdisciplinary nature of health care today and the mandate for critical thinking, contextual understanding and ethical behavior across all related fields and careers.

The program equips students with an academic foundation for work in a variety of health care professions, including (but not limited to) hospital administration, community health and public health.

Degree Requirements

All School of Continuing & Professional Studies undergraduate students must satisfy the same general-education requirements (<http://bulletin.wustl.edu/undergrad/caps/bachelors/#degreerequirements>).

Students in BSIS programs must complete a certificate (<http://bulletin.wustl.edu/undergrad/caps/certificates/>), tailoring their degree to their educational and professional goals. Students in BSIS programs must also complete a Community Engagement course. A designated course in the Health Care Management program will fulfill this requirement.

Required courses: 27 units
