

## MSW/Master of Public Health (MPH)

Students from this program earn a Master of Social Work (MSW) degree and a Master of Public Health (MPH) degree, both from the Brown School. The program of study requires **85 credit units**, typically taken over the course of three years.

This dual degree brings together global health, social justice, policy and evidence-based approaches to address complex issues. Some of the areas in which dual-degree knowledge and skills are necessary are medical social work, health disparities, health care access for marginalized populations, and health administration and policy.
