

Master of Architecture: MArch 2

Study Abroad

Students pursuing a Master of Architecture degree have the opportunity to participate in a study abroad program that provides an immersive experience in a city distinguished by its architecture, social policies, urbanism, and public space. Students complete the 511 or 611 comprehensive architecture studio during the semester-long program.

MArch students with 419 status or higher in the semester prior to study, in good academic standing, and with a cumulative grade-point average of 3.0 or higher can sign up to study abroad. Priority is given to students with higher studio levels and GPAs.

- For first-semester students without a Washington University GPA, the cumulative GPA on the official transcript(s) from their previous institution(s) will be used.
- GPA scores are pulled from the Washington University Student Information System on the day of the sign-up and updated during the first week of each semester.
- GPAs will not be recalculated after the first week of each semester.
- Students can participate in one study abroad program.
