

Master of Business Administration (MBA) (Full-Time)

Website: <https://olin.wustl.edu/EN-US/academic-programs/full-time-MBA/>

Degree Requirements

The Master of Business Administration (MBA) degree requires the completion of 67 credit units through a combination of required and elective courses. This allows students to shape their MBA curriculum to align with their personal and professional goals. Students can select courses that will hone their skills and start them on paths to becoming experts in their fields.

Students will begin their program in the summer term with courses in teamwork, communications, strategy, and values-based, data-driven decision making before traveling to Washington, DC, for their first global immersion course focused on global institutions and values. In the fall term, students complete core course work in operations, economics, accounting, marketing, and finance. At the midpoint of the fall, students complete their second global immersion course, which focuses on global markets and entrepreneurship. In the spring of their first year, students finish their remaining required courses and begin to enroll in electives. At the midpoint of the spring, students complete the third global immersion course, which covers global operations. In the second year of the program, students enroll in elective course work to deepen their knowledge within areas of professional and personal interest.

For more information, review the required curriculum (p. 1) for this program. Visit Olin's Graduate Programs site (<https://olin.wustl.edu/EN-US/academic-programs/full-time-MBA/Pages/default.aspx>) for detailed information about this program and its course offerings.
