

McKelvey School of Engineering

The McKelvey School of Engineering at Washington University in St. Louis consists of six academic departments and three interdisciplinary PhD programs offering both master's and doctoral degrees in a wide range of engineering disciplines.

We offer master's, master's of science (MS) and master's of engineering (MEng) degrees, many of which can be completed on either a full-time or part-time basis. We also offer a large number of full-time doctor of philosophy (PhD) degrees and some part-time doctor of science (DSc) degree options.

Our mission is to promote independent inquiry in engineering research and education with an emphasis on scientific excellence, innovation and collaboration without boundaries. McKelvey engineers produce new knowledge that changes the world, and our faculty are educating students to explore and create in a world we cannot yet imagine. Through research and education, we are making a positive impact on the local community, the country and the world.
