Degree Requirements
Interdisciplinary PhD in Materials Science & Engineering

To earn a PhD degree, students must complete the requirements of the McKelvey School of Engineering, along with specific program requirements. Courses include the following:

- Four IMSE Core Courses (12 units)

Total Units: 12

- Two semesters of IMSE 500 First-Year Research Rotation (6 units)
- Three courses (9 units) from a preapproved list of Materials Science & Engineering electives
- A minimum of 12 units of graduate-level technical elective courses in mathematics or any science or engineering department, to reach a total of at least 36 academic credit units
  - A maximum of 3 units of IMSE 505 Material Science Journal Club will be permitted toward this requirement.
  - Any 400-level courses not included on the preapproved list of Materials Science & Engineering electives must be approved by the Graduate Studies Committee.
- A maximum of 12 units of 400-level courses may be applied toward the required 36 academic credit units. Undergraduate-only courses (below the 400 level) are generally not permitted by the Office of Graduate Studies, Arts & Sciences, and may not be used to fulfill this requirement.
- IMSE 501 IMSE Graduate Seminar every semester of full-time enrollment
- 18 to 36 units of IMSE 600 Doctoral Research (Students must identify an IMSE faculty member willing and able to support their dissertation research on a materials-related topic.)
- Students must maintain a grade-point average of at least 3.0 for all graded courses and have no more than one grade of B- or below in a core course or a Materials Science & Engineering elective.

Additional program requirements include the following:

- Complete research ethics training by the end of the third semester
- Successfully complete teaching requirements:
  - Attend two or more Teaching Center workshops
  - Complete 15 units of mentored teaching experience
- Pass the IMSE Qualifying Examination (oral and written components)
- Maintain satisfactory research progress on a topic in materials science, as determined by the dissertation advisor and the mentoring committee
- Successfully complete the dissertation proposal and presentation, with approval from the dissertation examination committee
- Successfully complete and defend a PhD dissertation, with final approval from the dissertation examination committee

Failure to meet these requirements will result in dismissal from the program.

Course Plan
Year 1

Fall Semester
- Advanced Thermodynamics in EECE (EECE 502)
- Quantitative Materials Science & Engineering (MEMS 5610)
- IMSE Research Rotation (IMSE 500)
- IMSE Graduate Seminar (IMSE 501)
- Solid-State and Materials Chemistry (Chem 465) or elective

Spring Semester
- Kinetics of Materials (Physics 537)
- IMSE First-Year Research Rotation (IMSE 500)
- IMSE Graduate Seminar (IMSE 501)
- Solid State Physics (Physics 472) or elective
- Elective

Summer
- Begin dissertation research
- Prepare for IMSE Qualifying Examination (August):
  - Written document and oral presentation on research rotation
  - Oral examination on fundamentals from core courses
Years 2 and Beyond

• Electives (discuss with PhD advisor)
• IMSE Graduate Seminar (IMSE 501)
• Doctoral Research (IMSE 600)
• Teaching requirements:
  • Attend two or more Teaching Center workshops
  • Complete 15 units of mentored teaching experience
• Regular meetings (at least once per year) with the faculty mentoring committee
• Dissertation proposal and presentation (fifth semester)
• Dissertation and oral defense
