Education

Note: As of Summer 2022, this program is not currently accepting new students. Please email education@wustl.edu for more information about the MAEd–IP program.

Washington University’s Department of Education offers a part-time Master of Arts degree focused on an analysis of practice for educators who are currently employed as the teacher of record in a variety of public and private school settings. This analysis of practice allows educators to consider multiple and enhanced approaches for data collection, analysis, and reflection on educational issues involving educational assessment data, video microanalysis, qualitative inquiry, learning sciences research and educational foundation concepts. We offer three strands of study — Professional Development, Elementary/Middle School Science Education, and Innovative Teacher Certification — that work to enhance the educator’s professional development in a particular area of focus.
