Graduate Certificate in Applied Health Behavior Research

The Graduate Certificate in Applied Health Behavior Research (https://generalmedicalsciences.wustl.edu/education/health-behavior-certificate/) is a 15-credit program featuring a curriculum that is focused on key applied and theoretical concepts in health behavior as well as on the processes needed for managing program development and evaluation activities in clinical and community settings.

Program Requirements

The graduate certificate can be pursued on a full- or part-time basis. Registration is open to anyone with a four-year undergraduate degree from an accredited university or college in an appropriate field of study. Applications are accepted on a rolling basis, and students may pursue course work at their own pace.

Required Core Courses for the Graduate Certificate
