Department of Anesthesiology

Anesthesiology is a medical specialty encompassing a broad range of medical and scientific activities. The clinical practice of anesthesiology includes the following:

1. Assessment of, consultation for and preparation of patients for anesthesia and surgery;
2. Provision of insensibility to pain during surgical, obstetric, therapeutic and diagnostic procedures;
3. Monitoring and restoration of physiologic homeostasis during the perioperative period as well as homeostasis in the critically ill or seriously injured patient;
4. Diagnosis and treatment of painful syndromes; and
5. Clinical management and teaching of cardiopulmonary resuscitation.

The realm of scientific investigation in anesthesiology also spans a broad range. Scientific efforts at the cellular and molecular levels are directed toward understanding the molecular mechanisms of anesthesia and analgesia. Clinical research in anesthesiology includes broad epidemiological approaches to identifying indicators of outcome as well as prospective clinical studies examining new technologies, anesthetic agents and methods.

The Department of Anesthesiology (http://anest.wustl.edu) presents the student with the opportunity to do the following:

1. Acquire and apply pharmacologic knowledge related to anesthetic agents, opioids, paralytic and sedative drugs, and drugs affecting the autonomic nervous system;
2. Understand and apply the basic principles of airway management and mechanical ventilation;
3. Understand and apply the principles of cardiopulmonary resuscitation;
4. Understand and apply the technical skills and anatomic and pharmacologic knowledge used in performing regional nerve blocks;
5. Learn and apply the fundamental principles of acute and chronic pain management; and
6. Learn and apply the basic principles of critical care medicine.

Anesthesiology bridges the gap between basic science and clinical medicine. It provides experience with the clinical evaluation and management of patients as well as with applied physiology and pharmacology. The Department of Anesthesiology offers student experiences in the operating room, the intensive care unit, the pain management clinic and the laboratory.

MD University of the Philippines 2002

Giovanni Pauletti, MS, PHD
Adjunct Professor of Anesthesiology (primary appointment)
MS Swiss Fed Inst Tech (EPFL) 1987
PHD Swiss Fed Inst Tech (EPFL) 1994

Patricia A. Penkoske, MD
Instructor in Anesthesiology (primary appointment)
MD Washington Univ in St. Louis 1974
BS Lindenwood University 1969

John Albert Pieper, MD
Adjunct Professor of Anesthesiology
BS University of Wyoming 1977
MD State Univ of NY Buffalo 1979
BS University of Colorado Boulder 1974

**Mitchell R Platin, MD**
Assistant Professor of Anesthesiology (primary appointment)
MD Kent St University 1987

**Debra D Pulley, MD, MME**
Professor of Anesthesiology (primary appointment)
MD Saint Louis University 1987
MME University of MO Columbia 1982
BS Vanderbilt University 1978

**Laurie Jean Punch, MD**
Instructor in Clinical Anesthesiology (primary appointment)
BS Yale University 1997
MD University of Connecticut 2002
BS Yale University 1997

**R**

**Lesley Kathryn Rao, MD**
Associate Professor of Anesthesiology (primary appointment)
MD Saint Louis University 2006

**Rashmi R Rathor, MD**
Assistant Professor of Anesthesiology (primary appointment)
MD University of Illinois 2007

**Jebadurai Ratnaraj, MD, MD1**
Assistant Professor of Anesthesiology (primary appointment)
MD Madurai Kamaraj University 1979
MD1 Northrhein Westfalen Medical 1985

**Andrea Bulkley Reidy, MD**
Assistant Professor of Anesthesiology (primary appointment)
MD Illinois Wesleyan University 2010
BS Illinois Wesleyan University 2005

**Eduardo Reina, MD**
Assistant Professor of Anesthesiology (primary appointment)
MD University of Illinois Chicago 2011

**Clare H Ridley, MD**
Assistant Professor of Anesthesiology (primary appointment)
Assistant Professor of Surgery (Cardiothoracic Surgery)
BA Columbia College of Phy & Surg 2002
MD Washington Univ in St. Louis 2007

**Isabella Rossi Riordan, MD**
Instructor in Anesthesiology (primary appointment)
MD Loyola University Chicago 2014

**Pedro Rios Morales, MD**
Assistant Professor of Anesthesiology (primary appointment)
MD University of Puerto Rico 2010
BS University of Puerto Rico 2005

**Stephen L. Ristvedt, PHD, MA**
Associate Professor of Anesthesiology (primary appointment)
Associate Professor of Psychiatry
PHD University of Pennsylvania 1989

BA University of Minnesota 1981
MA University of Pennsylvania 1983

**Evan Ward Roller, MD**
Assistant Professor of Anesthesiology (primary appointment)
MD University of Cincinnati 2010

**S**

**Adnan Sadiq, MD**
Assistant Professor of Anesthesiology (primary appointment)
Assistant Professor of Surgery (Cardiothoracic Surgery)
BS State Univ of NY Buffalo 1996
MD Royal College of Surgeons 2001

**Angela K Saettele, MD**
Assistant Professor of Anesthesiology (primary appointment)
BS Simpson College 2004
MD University of MO Columbia 2008

**Monica Sala-Rabanal, PHD**
Instructor in Anesthesiology (primary appointment)
Instructor in Cell Biology and Physiology
BS University of Barcelona 1997
PHD University of Barcelona 2003

**Emine Aysu Salviz, MS, MD**
Instructor in Anesthesiology (primary appointment)
MS Ankara University 2009
MD Baskent University 2004

**Vijaya K Samineni, PHD**
Assistant Professor of Anesthesiology (primary appointment)
PHD Southern Illinois University 2013

**Matthew Stringfellow Sanzalone, MD**
Instructor in Anesthesiology (Pending Dean's Approval) (primary appointment)
MD Louisiana St University 2015

**Charles R Schrock, MD**
Associate Professor of Anesthesiology (primary appointment)
BS University of Notre Dame 1986
MD University of MO Columbia 1991

**Fourutan Tim Shafiei, MD**
Instructor in Anesthesiology (primary appointment)
MD Trinity School of Medicine 2015

**Rajiv K Shah, MD**
Assistant Professor of Anesthesiology (primary appointment)
MD University of Rochester 2010

**Ravitha Sheolal, MD**
Instructor in Anesthesiology (primary appointment)
MD Natal Medical School 1997

**Nicole Jimin Shin, MD**
Instructor in Anesthesiology (primary appointment)
BS Washington Univ in St. Louis 2010
MD Washington Univ in St. Louis 2015
Preet Mohinder Singh, MBBS, MD
Assistant Professor of Anesthesiology (primary appointment)
MBBS Dayanand Medical College 2007
MD All-India Inst of Medical Sci 2010

Pratik Sinha, MD, PHD
Assistant Professor of Anesthesiology (primary appointment)
MD University of Manchester 2002
BS University of Manchester 2001
PHD Imperial College 2013

John Charles Spitler, MD
Assistant Professor of Anesthesiology (primary appointment)
MD University of MO Columbia 2003
BS University of MO Columbia 1998

Tracey Wagner Stevens, MD
Assistant Professor of Anesthesiology (primary appointment)
MD Washington Univ in St. Louis 2008

Sanjay Subramanian, MD
Associate Professor of Anesthesiology (primary appointment)
Associate Professor of Medicine
MD Christian Medical College 1994

Robert A Swarm, MD
Professor of Anesthesiology (primary appointment)
BA Oberlin College 1978
MD Washington Univ in St. Louis 1983

Raghu P Terkonda, MD
Assistant Professor of Anesthesiology (primary appointment)
MD University of MO Columbia 1987
BS University of MO Columbia 1983

Loc Vinh Thang, MD
Instructor in Anesthesiology (Pending Dean's Approval) (primary appointment)
MD Michigan State University 2015

Douglas Royce Thompson, MD
Associate Professor of Anesthesiology (primary appointment)
BS University of CA San Diego 1998
MD University of CA San Diego 2003

Swarup Varaday, MBBS
Associate Professor of Anesthesiology (primary appointment)
MBBS Andhra University 1989

Anandhalakshmi Varadarajan, MD, MBBS
Instructor in Clinical Anesthesiology (primary appointment)
MD St. Lukes 2007
MBBS Srimachandra Medical College 2000

Gershon Ram Volotzky, MD
Associate Professor of Anesthesiology (primary appointment)
MD Tel-Aviv University 1979

Coridalia Wald Chen, MD
Instructor in Anesthesiology (primary appointment)
MD University of Panama 2006

Brian Louis Weber, JD, MD
Instructor in Anesthesiology (primary appointment)
JD Washington Univ in St. Louis 2008
MD University of MO Kansas City 2015
BS University of MO St Louis 2005

Ashley Brooke Weinhold, MD
Assistant Professor of Anesthesiology (primary appointment)
MD University of Arkansas 2011

Brian T Wessman, MD
Associate Professor of Anesthesiology (primary appointment)
Associate Professor of Emergency Medicine
BS College of William and Mary 2000
MD Commonwealth College 2005

Troy S Wildes, MD
Associate Professor of Anesthesiology (primary appointment)
MD Washington Univ in St. Louis 2002
BS Illinois Wesleyan University 1998

Brett D Wolff, MD
Associate Professor of Anesthesiology (primary appointment)
BA Indiana University Bloomington 1981
MD Indiana University Bloomington 1985

Maxim Wolfson, MD
Instructor in Anesthesiology (primary appointment)
MD Washington Univ in St. Louis 2015

Xiaoming Xia, MS, PHD
Assistant Professor of Anesthesiology (primary appointment)
MS Shanghai Jiao Tong University 1987
BS Fudan University 1984
PHD Vollum Institute OHSU 1998

Branden Edward Yee, MD
Assistant Professor of Anesthesiology (primary appointment)
BS Tufts University 2004
MD Tufts University 2008

Xiaobin Yi, MD
Associate Professor of Anesthesiology (primary appointment)
MD Hunan Medical University 1985

Alexander H Young, MD
Assistant Professor of Anesthesiology (primary appointment)
BA University of Mississippi 1986
MD University of Arkansas 1990

Anna Rebecca Young, MD
Assistant Professor of Anesthesiology (primary appointment)
Research Electives

Anesthesiology Research Electives

During the fourth year, opportunities exist for many varieties of advanced clinical or research experiences.

Special electives in basic science research as it applies to anesthesiology can be arranged with the principal investigators in the Department of Anesthesiology (http://anest.wustl.edu/); in the Division of Basic Research under the direction of Jose Moron-Concepcion, PhD; in the Washington University Pain Center under the direction of Rob Gereau, PhD; and in the Division of Clinical and Translational Research under the direction of Simon Haroutounian, PhD.

The basic science laboratories focus on various topics related to ion channel structure and function, molecular mechanisms of anesthetic action, sepsis, cellular and molecular mechanisms of reward and addiction, and the cellular and genetic basis of acute and chronic pain and itch. Arrangements for these special electives are made through the specific investigators: Zhou-Feng Chen, PhD; Meaghan Creed, PhD; Alex S. Evers, MD; Narasimhan Gautam, PhD; Robert W. Gereau, PhD; Richard S. Hotchkiss, MD; Hongzhen Hu, PhD; Christopher J. Lingle, PhD; Qin Liu, PhD; Jose Moron-Concepcion, PhD; or Arvind Palanisamy, MD. In addition, opportunities exist for clinical research under the direction of Joanna Abraham, PhD; Michael Avidan, MBBCCh; Anne Drewry, MD; Brian Fuller, MD; Simon Haroutounian, PhD; Thomas Kannamapallil, PhD; Michael Montana, MD, PhD; Ben Palanca, MD, PhD; or Troy Wildes, MD.

Courses

M10 Anesth 805 Anesthesiology

This clinical elective is designed to familiarize the student with basic aspects of anesthesiology practice. The primary teaching method is patient care in a clinical setting (one-on-one). The student will learn the basics of preoperative evaluation of surgical patients, the use of intraoperative monitoring in patient management and postoperative care. In addition to perioperative care, the student will be exposed to other clinical areas which include our pain management clinic, regional anesthesia/acute pain management, cardiothoracic intensive care unit, labor and delivery, pediatric anesthesia, and the Center for Preoperative Assessment and Planning. During the four-week rotation, the student will learn airway management skills, practice perioperative fluid and electrolyte therapy, along with general and regional anesthetic techniques. As an integral part of the anesthesiology care team, the student will participate actively in the anesthetic management of surgical patients. The student's specific requests to be assigned to certain types of cases will be honored as time and availability dictate. The rotation will include three clinical simulator sessions using a simulator mannequin for practical management of airway problems, resuscitation, and trauma emergencies. By the end of the rotation, the student should be able to independently (under supervision) provide anesthesia for uncomplicated surgical procedures.

M10 Anesth 811 Cardiothoracic Anesthesiology Subinternship

This clinical elective offers practical experience in the perioperative assessment and management of surgical patients undergoing cardiothoracic procedures. The student, as an integral part of the cardiothoracic anesthesia team that is composed of faculty members, fellows and residents, will learn basic principles of airway management and lung ventilation, essential aspects of pharmacologic treatment of hemodynamic abnormalities and cardiac dysrhythmias, and management of intraoperative coagulation disturbances. Emphasis will be placed on the interpretation of intraoperative hemodynamic data, echocardiographic finding (TEE), and laboratory results. During this rotation, the student will also gain practical experience in endotracheal intubation as well as the placement of intravenous lines and invasive monitoring lines, including radial artery and pulmonary artery catheters. Students will learn how to use these parameters in clinical decision making during anesthesia. At the conclusion of the rotation, the student will have a better understanding of invasive monitoring and data interpretation, as well as a more systematic approach to the management of intra- and post-operative hemodynamic, pulmonary and coagulation abnormalities. The students are expected to attend the didactic sessions of CTA and the Department of Anesthesiology. A presentation will be assigned.

M10 Anesth 812 Pediatric Anesthesiology

This clinical elective is designed to teach the theory and practice of pediatric anesthesiology and pain management. It features individualized instruction with faculty who specialize in the perioperative care of pediatric patients. The elective consists of active participation with pediatric anesthesiologists at St. Louis Children's Hospital and St. Louis Shriners Hospital learning pre-anesthetic assessment, the performance of routine
anesthetics (which includes instruction and practice in pediatric airway skills), learning other technical skills such as intravenous line placement and the management of post-anesthesia care and pain therapies. The final week may be tailored to meet the student's individual interests, needs and career goals. Possibilities include exposure to sedation and anesthesia for procedures outside of the operating rooms, and to subspecialties including cardiovascular anesthesia, neurosurgical anesthesia, and acute and chronic pediatric pain management. Students also will have an opportunity to learn the management of some common medical emergencies in the Clinical Simulation Center.

M10 Anesth 819 Cardiothoracic Critical Care Subinternship
This clinical elective offers practical experience in the postoperative management of cardiothoracic patients. The student will be fully integrated into one of the intensive care teams and have the opportunity to contribute to the management of critically ill patients. Students will have the opportunity to follow specific patients over the course of their stay in the ICU, during which time they will gain insight into holistic management of patients with multi-organ dysfunction. The CTICU environment is both challenging and exciting. Students will gain unique insight into cardiorespiratory physiology and pharmacology which will be demonstrated at the patients’ bedside, an invaluable and unforgettable learning experience. Students will have opportunities to learn and sometimes assist with procedures, such as central lines, chest tubes, bronchoscopy and pulmonary artery catheter insertion as well as bedside ultrasound including TTE and TEE. Principles of management and resuscitation of hemodynamically unstable patients following surgery will be emphasized as well as ventilator management. Students will also see and help manage patients with unique physiology such as those patients on ventricular assist devices, and on ECMO. We also have a very busy and heart and lung transplantation program at the hospital - all of these patients are cared for in the CTICU. At the conclusion of the rotation, the student will have a better understanding of shock, sepsis, multi-organ failure, organ system support and compassionate withdrawal of life support. In addition to bedside teaching, there will be informal teaching sessions on a wide variety of topics as well as teaching on interpreting hemodynamic data and waveforms, and cardiac echo exams. Students will be encouraged to present on their patient at morning rounds, during which constructive feedback and interactive teaching will occur. Medical students will be asked to present a short discussion on a topic of their choice. This should be a short 20-30 minute presentation followed by a discussion on the topic which will be moderated by the attending. Discuss the time and topic of choice with the attending.

M10 Anesth 820 Critical Care Subinternship
Students on this rotation are integral members of the multidisciplinary intensivist-led critical care team in the Surgical Intensive Care Unit (SICU). Students learn an organ systems-based approach for evaluation and management of critically ill and injured patients, and application of evidence-based principles in delivery of state-of-the-art critical care. Emphasis is placed on critical care knowledge and techniques used at the bedside in the clinical management of serious traumatic and surgical conditions. Students become familiar with resuscitation and cardiopulmonary support, including methods for non-invasive and invasive hemodynamic monitoring, and techniques for airway management and pulmonary support in respiratory failure. Basic knowledge and skills in the management of blunt and penetrating trauma, neurologic injuries, multi-system organ failure, and life-threatening infections in the surgical patient are also taught, as is the importance of treatments to alleviate anxiety and pain, maintain fluid and electrolyte balance, and providing adequate nutrition. Practical experience is gained in placement of vascular access devices, airway equipment, ultrasonography and its applications, interpretation of imaging and laboratory data, and use of guidelines, protocols and quality assurance tools in the management of critically ill patients.

M10 Anesth 821 Pain Management
Acute pain is the most common symptom of medical illness and is ubiquitous after major surgery. Chronic pain is the leading cause of worker disability. Severe pain afflicts most people with advanced cancer. Learning the fundamentals of pharmacologic, interventional, and multidisciplinary pain management is important for all areas of clinical medicine.

M10 Anesth 822 Anesthesiology for Neurosurgery Subinternship
Students will help care for patients having challenging neurosurgical procedures. Students will become familiar with complex procedures, brain monitoring, cardiovascular support and airway management and will be exposed to all kinds of neurosurgical pathology. Student must be prepared to participate in the intricate anesthetic management of patients undergoing surgery in our novel intraoperative MRI rooms. For those interested, clinical research projects are ongoing and student participation is encouraged.

M10 Anesth 823 Obstetrical Anesthesiology
The medical students will learn the different analgesia/anesthetic options for the labor patient. They will also learn how the physiological adaptations of pregnancy influence anesthetic management. They will be actively involved in the parturient’s management, i.e., starting an IV, placement of spinal, epidural or CSE (combined spinal epidural) anesthetics. They will also attend the OB anesthesia conferences and interview patients in labor (with an OB anesthesia attending).

M10 Anesth 900 Research Elective - Anesthesiology
Research opportunities may be available. If interested, please contact the Department of Anesthesiology.
