or Psych 468	Applied Psychology of Learning: Training in Industry	
6 units of authorized Psychology or Business courses, of which at least one must be an upper-level (300-400) course		6
Total Units		18

Students who elect to major in psychological & brain sciences and also to complete this special minor must complete a total of 45 units in psychology instead of the usual 33. They must choose courses for the psychological & brain sciences major that are distinct from those required for the industrial and organizational psychology minor, with the exception of Psych 100 and Psych 300. Students completing an industrial and organizational psychology minor are strongly encouraged to include basic economics courses among their social science electives.
