

# Integrated Studies

The **Bachelor of Science in Integrated Studies** is designed for adult learners who want to build on their existing education and tailor their degree to match their personal and professional educational goals. Learners discover and engage with subjects across disciplines in a given area concentration or combine varied courses with professional studies. Students acquire the foundation for career development and lifelong learning, honing skills in writing, deep reading, communication and critical thinking. By approaching subjects across disciplines, learners consider and analyze issues using multiple lenses. They deepen their understanding of problems, test new approaches to challenges, and learn to solve issues creatively.

The Bachelor of Science in Integrated Studies can be completed in both on-campus and online formats. Students interested in completing this degree online should visit the School of Continuing & Professional Studies webpage for the Bachelor of Science in Integrated Studies — Online (<https://caps.wustl.edu/programs/undergraduate/bachelors-integrated-studies-online/>).
