Minors (directory)

Residency Rule for Engineering Minors

No more than 6 units of credit transferred from another institution (outside Washington University) can be used to meet the requirements of any minor offered by the McKelvey School of Engineering. The remaining units (up to the amount required for the minor) must be applicable units from Washington University taken for a letter grade. Classes taken with the pass/fail grade option do not meet requirements unless specifically allowed. The review committee that oversees a minor has the authority to establish a more stringent residency rule.

Minors

Below is a list of minors offered by the McKelvey School of Engineering. Visit the following sections of this Bulletin for more information about a specific minor. Students must log into WebSTAC (https://acadinfo.wustl.edu/WebSTAC.asp) and select the Major Programs link under Academics to declare a minor online.

• Aerospace Engineering (http://bulletin.wustl.edu/undergrad/engineering/mechanical-engineering-materials-science/minor-aerospace/)
• Bioinformatics (http://bulletin.wustl.edu/undergrad/engineering/computerscience/minor-bioinformatics/)
• Biomedical Data Science (http://bulletin.wustl.edu/undergrad/engineering/biomedical/minor-biomedical-data-science/)
• Computer Science (http://bulletin.wustl.edu/undergrad/engineering/computerscience/minor-computer-science/)
• Electrical Engineering (http://bulletin.wustl.edu/undergrad/engineering/electrical-and-systems/minor-electrical/)
• Energy Engineering (http://bulletin.wustl.edu/undergrad/engineering/energy-environmental-chemical/minor-energy/)
• Environmental Engineering Science (http://bulletin.wustl.edu/undergrad/engineering/energy-environmental-chemical/minor-environmental/)
• Human-Computer Interaction (http://bulletin.wustl.edu/undergrad/engineering/computerscience/minor-human-computer-interaction/)
• Materials Science & Engineering (http://bulletin.wustl.edu/undergrad/engineering/mechanical-engineering-materials-science/minor-materials/)
• Mechanical Engineering (http://bulletin.wustl.edu/undergrad/engineering/mechanical-engineering-materials-science/minor-mechanical/)
• Mechatronics (http://bulletin.wustl.edu/undergrad/engineering/electrical-and-systems/minor-mechatronics/)
• Nanoscale Science & Engineering (http://bulletin.wustl.edu/undergrad/engineering/energy-environmental-chemical/minor-nanoscale/)
• Quantum Engineering (http://bulletin.wustl.edu/undergrad/engineering/electrical-and-systems/minor-quantum-engineering/)
• Robotics (http://bulletin.wustl.edu/undergrad/engineering/electrical-and-systems/minor-robotics/)
• Systems Science & Engineering (http://bulletin.wustl.edu/undergrad/engineering/electrical-and-systems/minor-systems/)
